

SITUATION AWARENESS IN FOREIGN ENVIRONMENTS (SAFE)

GLOBAL TRAVEL, SITUATION AWARENESS AND THE TRAVELLER

Being aware of your surroundings and the environment you are travelling and operating in is a personal duty that you owe to your family and loved ones. NEPTUNE P2P Group have extensive experience in security across the sphere of risk. We deliver high quality training courses for businesses and travellers. We will train you to be aware in seaport towns and cities, airports, taxis, on buses, in hotels and even walking down the street that will see you plan and prepare each trip carefully in order to remain SAFE.

The SAFE traveller is the traveller that has conducted the NEPTUNE P2P Group course, they are confident that levels of awareness have been raised. They know the environment they are travelling in and how to maintain a low profile presence. They are confident they can read situations and immediately assess how to respond and react should something out of the ordinary occur, they are SAFE.

BESPOKE DELIVERY

We will evaluate and assess your destination, conduct a thorough and detailed assessment of the country specifics and your company profile. We then deliver a bespoke course that we will tailor to your specific needs and requirements in order to make you and your team SAFE. The course covers topics such as:
